Preliminary schedule meeting ToE January 18th, 2016
(all times: Central European Times, please adapt to your own time zone!)

Meeting link: https://meet74138911.adobeconnect.com/tensions-of-europe

10:00-11:00 CET
Research applications for funding
- Update on what is happening at ToE at large (March 11th meeting, Elena)
- Discussion of proposal Elena & Viktor Pal, "Between pollution and protection"
  (fyi there's a draft paper included in your package as well on "Recycling and forests",
  which is connected to the topic of the research proposal)
- Further research collaboration issues.

11:00-11:30 CET
- Platform: the ToE management committee is willing to make a digital platform
  available for use by the ToE community. This could be Adobe Connect, the tool we'll
  be testing for our virtual meeting. Will it serve our purpose?
- Web Editor: the ToE management committee has decided that the website of ToE
  needs a thorough update. We'll discuss with Alexia the possibility of becoming the
  web editor for ToE for a while.

15:00-16:00 CET
Face-to-face research collaborations and conference participations during 2016
- ICOHTEC meeting, Porto 26-30 July 2016, *Deadline January 21st*
  There are draft proposals in the making by Ana Paula & Jira (on dams), and Luísa et
  al. (on traffic engineering).
  o Since several of us will be going to Porto, it makes sense to organize
    something after the meeting, so as not to clash with the summer school (that
    some of us might be attending).
- EASST/4S, Barcelona (August 31st -September 3rd), *Deadline February 21st*
  Stevie will go through the list of options. If a theme raises enough attention amongst
  us, it needs to result in an abstract for a closed session with 4-6 papers.
- SHOT: There is a proposal to collaborate with a PhD platform at SHOT. We will
  discuss this at our meeting.
- Johan & Tirza have a draft proposal in the making, to be presented at a conference in
  2016: "Outer space - Ocean space – The Common Heritage of Remote Commons".
